Smart Plug

The intelligent plug which allows you to monitor the power consumption of the devices connected to it and turn them on and off remotely.

- control of electrical appliances up to 2300 W
- relay switched on when the voltage is at the zero cross point
- LED indicator — LED ring informing about the power consumption through the connected device, overloading or overheating
- operation in the 868 MHz frequency band
- AES encrypted two-way radio communication
- transmission channel diversity — 4 channels for automatic selection of the one that will enable transmission without interference with other signals
- remote settings programming
- remote firmware update
- firmware protection against overload and overheating
- housing made of non-flammable plastic
- available in two versions:
  - ❖ with type E socket (EURO) — **Smart Plug E**
  - ❖ with type F socket (SCHUKO) — **Smart Plug F**

be wave
MADE BY Satel

Operating frequency band ....868.0 MHz ÷ 868.6 MHz
Radio communication range (in open area)... up to 1000 m
Supply voltage ....230 V AC, 50-60 Hz
Standby power consumption ....0.73 W
Maximum power consumption .... 1.37 W
Rated current (resistive load).. 10 A
Complied with standards.. EN 50130-4, EN 50130-5
Environmental class according to EN 50130-5 II
Operating temperature range ....-10℃ ÷ +55℃
Maximum humidity...93±3%
Dimensions:
· ASW-200 E..ø45 x 67 mm
· ASW-200 F..ø45 x 70 mm
Weight:
· ASW-200 E.. 60 g
· ASW-200 F..61 g

ASW-200 E

Compatible with

abax2

wireless system

ASW-200

ASW-200 F
