

DSP118/ DSP119

Miniature satellite speaker 8 Ohm

Features

- Commercial PA system wall-mounted speaker
- Rated output power 10W at 8Ω
- Power tap is optional according to user's need
- 1×2.75" driver unit
- Quick installation with brackets
- Small and neat appearance with extraordinary sound quality
- Ideal for offices, hotels, bars and shopping mall public address system

Description

The DSP118/DSP119 satellite low impedance loudspeaker offers a combination of design and great sound. With its 2.75" paper cone woofer, DSP118/DSP119 is one of the smallest loudspeakers on the market and allows easy integration into every interior without compromising on sound quality. This speaker can be installed in a shop or bar where a loudspeaker is needed that creates an inviting atmosphere but also for residential projects where you need to install a sound system which does not take over the room.

Special brackets are supplied with the speakers allowing them to be mounted under various angles in corners or on solid surfaces such as walls or ceilings.
